HARAJUKU

To most, Harajuku is just a shopping district right outside the Harajuku Station of the Yamanote line... To others, Harajuku is the lolita fashion capital of the world! It is said that every Sunday the youth of Japan gather in this district wearing anything from gothic lolita clothing to cosplay to mingle and flaunt their style.

Harajuku is home to many fashion trends and unique styles. Gothic Lolita, Visual Kei, Ganguro, Gyaru, Kogai, or even Kawaii styles are just a few of the various fashions you will find in this district.
